Back to School Special: 20%off Laureate's Complete Language Development Package

Language is the foundation of school success!

Laureate's Complete Language Development Package is designed to improve language and literacy skills. Research based, this package contains 17 programs that cover early vocabulary, categorization, essential grammatical forms,

pronouns, prepositions, WH- and Yes/No Questions and auditory processing.

This package is ideal for Pre-K through elementary school students with language disorders, hearing disorders, students on the autism spectrum with language disorders, pre-K

through 3rd grade English language learners, and kindergarten and 1st grade children being served in an RTI model.

This special offer reduces the retail price of this package from \$2602 to \$2082. To order or for more information, please contact LAB Resources.

Dragon Corner

This regular column answers a commonly asked question about Dragon NaturallySpeaking

Question: What is a shortcut and how do I create one in Dragon ?

Answer: A shortcut is the use of two or three words to bring up a phrase or sentence that you frequently use. For example, a shortcut could insert the name of your school when you say "school name" or bring up your email address when you say "email address line". Here are the steps to create a shortcut to insert your email address into a document.

1. Click **Vocabulary**, then **Add new word or phrase**.
2. Type in the word or words you would like Dragon to type. Try typing in your e-mail address.
3. Under **Spoken form**, type 2 or 3 words you would like to say to bring up this phrase. Type or say **email address line** for the spoken form.

4. Click **Add**.
5. Train this short cut. Click **Go** and say **email address line**. Repeat 2 times. Dragon is more accurate if a word or phrase is trained several times.. Click **Done**..
6. Try dictating **email address line** into your document. Did Dragon type your actual e-mail address?

Dragon comes with a number of pre-made shortcuts. Some of these shortcuts allow you to search the web by voice or search your desktop by voice, We will look at these in the next newsletter.

If you have questions or would like additional information, please contact LAB Resources.

LAB Resources is an authorized Value Added Reseller for Dragon NaturallySpeaking. We provide training, support and have created our own tutorials and training materials. Please call LAB Resources for more information (262-691-3476 or 888-504-7106).

PEARL Camera + WYNN 6

Do you find scanning documents into your reading software to be a time-consuming and laborious task?

If you would like to find an easier way to capture text so that it can be read aloud on your computer, consider the new PEARL camera and WYNN 6.

The PEARL camera works with the new WYNN 6 to provide instant OCR. Press the keystroke to snap a picture and hear your book read back to you with one of WYNN's Real-Speak Solo Direct voices.

Use the PEARL to read textbooks, magazines, research documents, and paperbacks. WYNN identifies

columns and places them in a logical reading order.

In automatic mode, the PEARL senses motion, so it knows to snap an image whenever you turn a page.

For more information, or pricing, please contact LAB Resources

PEARL at a Glance:

- ◆ True portable access to books anywhere you go
- ◆ Convert printed text to high-quality speech in seconds
- ◆ Scan 20 pages per minute
- ◆ Scan books without removing the binding
- ◆ Add notes and highlighting
- ◆ Export to other applications like Microsoft Word or Notepad
- ◆ Fold it up and take it with you in its protective carrying case

Earobics Foundation *New* Clinic Version

Earobics will be releasing a new updated Clinic version this fall. A hybrid CD, the new Earobics Clinic Version has been designed and built for Windows 7 and Mac/Intel computers. However, it will also run on older computers. The system requirements are: Win95 to Win7, OS 10.6.

The Earobics Foundations Clinic V3 will have a new look and feel,

and will be more powerful. The reporting function will provide more information and will also be easier to use.

The Earobics Foundations Clinic V3 will allow six student users, and will be priced at \$439.95

A release date has not been set. When it is available, it will be listed on the LAB Resources'

website—the What's New page.
