Summer, 2011

WYNN 6 *New!*

Freedom Scientific has announced WYNN Ver. 6.

Probably the biggest and nicest change is that WYNN 6 works with the Pearl document camera.

The PEARL is the ultimate in portable scanning and reading. With just one keystroke, it snaps a picture and reads to you within seconds. Weighing only two pounds, PEARL provides excellent OCR access wherever you are reading.

In automatic mode, the PEARL senses motion, so it knows to

snap an image whenever you turn a page. Place your book sideways, and the PEARL will snap two pages at a time and maintain the pagination.

Here are some of the other features new in WYNN 6:

◆ **MathML:** Support for math and science formulas written using MathML, the math mark-up language adopted as part of the NIMAS std.

◆ **Skim Read:** Quickly check out what's in a document before reading it thoroughly. *(cont'd on page 3)*

*WYNN 6 with Pearl Document Camera
Pearl Camera is lightweight and portable*

Echo Smart Pen—*now for schools!*

Livescribe, the manufacturer of the Echo Smart Pen is now allowing us to sell Smart Pens to schools!

or call LAB Resources at 262-691-3476 or 800-691-3476 –or send us an email: labresources@wi.rr.com

For more information about the Smart Pen or for pricing, please check out our website-

Dragon Corner

This regular column answers a commonly asked question about Dragon NaturallySpeaking

Question: What is Dragon NaturallySpeaking Ver. 11.5? What are the new features?

Answer: Nuance has recently announced Dragon NaturallySpeaking 11.5. Dragon 11.5 will be a free download for existing Ver. 11 customers, and available to purchase for upgrade for users of Ver. 9 and 10.

Here are some additions and changes from ver. 11 to 11.5:

- ◇ Improved accuracy and performance—up to 99% accuracy.
- ◇ New formatting and editing commands. The new “Quote that” and “Bracket that” commands can be applied to the last utterance or current selection.
- ◇ New Dragon Remote Microphone application turns your iPhone, iPad or iPod touch into a wireless microphone.
- ◇ New voice commands let you post to Facebook and Twitter by voice. *Users can easily update Facebook by saying “Post to Facebook”, or dictate text and then say “Post that to Twitter”.*
- ◇ *More Usable Spelling Window: The Spelling Window, which allows users to type or spell out a word that Dragon did not recognize correctly, is now resizable horizontally with more options for alternate words and phrases, making it easier for users to modify or correct text.*
- ◇ *Revised Dragon Sidebar can be customized.*
- ◇ *Easier to use with a digital voice recorder (we offer the Sony SX-750 recorder at \$149.95)*
- ◇ *New commands for Internet Explorer 9*

If you have questions or would like additional information, please contact LAB Resources.

LAB Resources is an authorized Value Added Reseller for Dragon NaturallySpeaking. We provide training, support and have created our own tutorials and training materials. Please call LAB Resources for more information (262-691-3476 or 800-691-3476).

WYNN 6, continued from page 1

◇ **Book Search:** Search for Bookshare, Gutenberg, and Baen books from within WYNN

◇ **WYNN Loan License:** Flexibility for roaming laptops and student home use

◇ **Split View:** See the Exact View and Text View together

◇ **Crisp Exact View** - technical advances have made WYNN's Exact View even more crisp and clean, providing an ever better user experience.

◇ **Built-in Updater:** You can update WYNN using the new Check

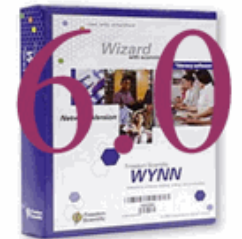

for Updates feature. If a new update is available, you can install it from within WYNN. This enables you to get minor updates without uninstalling and installing a new version.

WYNN incorporates Universal Design for Learning features to enhance success.

WYNN continues to maintain its unique differentiators such as its clean, clear user interface, including the unique Text View/Exact View method to display documents; Web Browsing features, including the patented WebMasking® feature; NavBar for managing open documents; and visual tailoring,

including the ability to change size, line spacing, and word spacing with a click of the mouse.

WYNN is available in both standalone and network versions. For more information, or pricing, please contact LAB Resources at 262-691-3476 or 800-691-3476—or visit our website and click on the What's New page.

Typing Challenge Test

The Typing Challenge test is a fun test to compare how fast you type with how fast you speak.

Most people speak over 120 words per minute, but type less than 40 words per minute.

Take the typing challenge to see if you could get your work done faster by speaking to your computer than by typing.

To take the typing challenge, go to:

<http://www.labresources-assistivetechology.com/Whats-New.html>

Scroll down the page until you see [Typing Challenge](#).
