

Are you responsible for teaching others in your school or district how to use AT software?

Workshop in a Box is designed to provide you with all the tools you need to conduct a workshop for a variety of popular assistive technology software programs.

Workshop in a Box is available for:

- ◆ Boardmaker 6 for Windows
- ◆ Boardmaker Plus 6 for Windows
- ◆ Boardmaker Speaking Dynamically Pro 6—Windows
- ◆ Classroom Suite 4.2
- ◆ Clicker 5 for Windows
- ◆ Dragon NaturallySpeaking 11
- ◆ Kurzweil 3000 Version 12
- ◆ WYNN Wizard/WYNN Reader 6

Add our *Look & Learn Video* for follow-up training of individual staff members!

Our Workshops are available for many older versions, too - please call.

LAB Resources is a company that specializes in assistive technology. We are committed to bringing you assistive technology at the lowest prices with the highest level of assistance.

If you would like a copy of our full catalog, please call us at 262-691-3476 or 888-504-7106—or send an email to labresources@wi.rr.com

**Pulling It All
Together For You**

Workshop in a Box

All the tools you need to conduct a workshop on selected assistive technology software programs.

“Increasing teacher knowledge and skills is the most powerful & effective way to increase student performance.”

- Reed, P.; Kaplan, M.; & Bowser, G. The Assistive Technology Trainer's Handbook, 2009

Workshop in a Box

Have you purchased assistive technology software for your school and now need training on how to use it?

Workshop in a Box is designed to save you time and money. Get staff trained without having to hire an outside trainer. Save time because all the tools you will need to train your staff are included in Workshop in a Box.

Workshop in a Box incorporates best adult learning practices and includes both presentation and hands-on materials. Workshop in a Box empowers educators to carry out their own trainings.

Each **Workshop in a Box** includes:

- ◆ Workshop in a Box CD:
 - PowerPoint Presentation with presenter notes—*Know what to say for each slide.*
 - PDF Files—*Print as many as needed for your school district:*
 - * Participant's Workbook PDF
 - * Learning Objectives PDF
 - * Agendas PDF
 - * Discussion Questions PDF
 - * Implementation Strategies PDF
 - * Evaluation Form PDF
 - * Completion Certificate PDF
 - PowerPoint Viewer 2003 and 2007
 - Adobe Reader
- ◆ 2 Booklets:
 - Presenter's Booklet (paper copies of PowerPoint with notes and all PDF Files)
 - Participants' Workbook
- ◆ Audible 8" Time Timer
- ◆ \$25 Gift Certificate

Our **PowerPoint presentation** is in-depth and linked to the hands-on workbook used by workshop participants—designed to follow established principles for easy visibility and impact. Each slide includes notes for the presenter.

Agendas are available for half and full day. The agenda can easily be adapted to present smaller blocks of training, such as after school sessions. Lessons can be repeated as needed.

Print a workbook for each participant. Our **Workbooks** guide the participants through the hands-on portion of the training. They are easy to use with clear step-by-step instructions and colored graphics. After the workshop, they can be used as take-home material to support workshop participants as they implement the software in their classrooms.

We include an audible **Time Timer** to provide a visual cue for hands-on portions.

Add a little fun with a drawing for our **gift certificate**

Look & Learn Video

Add our *Look & Learn Video* to your Workshop. Available for select titles. Our *Look & Learn Video* is a narrated PowerPoint and software demonstration that can be run on your computer (Windows Media Video) or iPod capable of playing MP4 Video.

Perfect for the educator who missed the training—or is new to the school district! The *Look & Learn Video* links to the workbook for hands-on practice—great for training a single educator.

Screen Shot from Classroom Suite 4.1 Look & Learn Video

The *Look & Learn Video* is also a good choice for educators who desire additional practice with the software. Replay specific areas of the video, and practice with the hands-on materials.

LAB Resources has been producing tutorial workbooks since 2001. Our tutorials have been commended by many educators and program directors for their clear instructions and ease of use.

Pricing

PDF Files are available on CD or 4 GB USB Flash Drive

Workshop in a Box :

	<u>CD</u>	<u>USB</u>
